

Rotary District 7770 and Water Missions International

	 <p>Water Missions International</p>	
<p>Daniel Island and Charleston Breakfast Rotarians pack systems for Peru</p>		<p>Living Water™ Treatment System transport in Peru</p>

Overview

Rotary clubs have been helping Water Missions International provide safe water in developing countries and disaster areas since 1999. Individual clubs and matching grants from District Designated Funds and the Rotary Foundation have funded numerous projects in several countries. With more than one billion individuals around the world lacking access to clean drinking water, these projects are vitally important to people's health and to breaking the poverty cycle in the developing world.
